

To whom it may Concern,
I am writing about the bill in congress to stop XM from airing traffic and weather reports. My wife and I have XM in our vehicles and use that service all the time. It is impossible to get any traffic reports locally if it is not during rush hour. Weather is just as bad for us, we live outside of the AM reception areas of Phil., Wilm., and Balt. XM provides a service we cannot get with AM and FM very rarely will air traffic and weather reports.

Please don't refuse XM the ability to air these reports.

Thank You,

Robert and Judy Corvino
